

## Prayers Needed

- **Pray for those dealing with COVID.** (Now, in the U.S. 1 out of every 500 people has died of COVID) 37% of COVID patients report having at least 1 long-term symptom. As the number of people sick, & dying increases, so does the anger, frustration, & fear surrounding the pandemic. Too many people are allowing those feelings to overwhelm them & cloud their judgment. Help us sow the seeds of cooperation, empathy, & Christ-like concern for each other for the good of all.
- **The people of Myanmar (Burma)** In February, the military there staged a coup & seized power from their newly elected government. Since then, the military has been waging a violent & brutal terror campaign against all who oppose them. Peaceful protests have been met with brutality. Thousands of doctors, activists, journalists, artists -- anyone the military deems to be an 'enemy', have been arrested, tortured, or killed. When the military cannot find its opponents, the military is taking their families hostage instead – including young children. Family members, including children, are being tortured & imprisoned in an effort to kill all descent.
- **Pray for the people of Afghanistan – especially the women & girls** as they face life under extreme Islamic fundamentalism & the continuing terrors of violence. Pray for the Afghan refugees trying to find new homes. Child Disaster Services is working with the children at some of the facilities where they are being held. Church World Service is calling on churches to help resettle families.
- **Continue prayers for those affected by Storms, flooding, & fires** in the U.S, India, Spain, Haiti, Germany, Belgium, the Netherlands, Switzerland, China, & Africa. Help sow the seeds of empathy, resolve, encouragement, & creativity as we help people recover & address the human causes that have contributed to these disasters.
- **Pray for refugees** fleeing violence, political upheaval, hunger, economic crisis, or environmental catastrophe. Help us sow the seeds of peace, reason, community, & problem solving as we tackle the issues that put people in such desperate situations. Remember especially those geographically closest to us who need our compassion, empathy, and help.

*Take a  
Moment to  
Pray for  
Peace!*
