

Pray

- **The People of Somalia** – who are dealing with a major drought which is causing a famine which may be catastrophic. Already, hundreds of thousands are experiencing famine. Within weeks 2 million may be starving. War in the country is making it worse. Some are out of reach of help due to the war.
- **The People of Haiti** – are dealing with a cholera outbreak.
- **Puerto Rico & Dominican Republic** – are recovering from hurricane Fiona which caused heavy rain, flooding & mud slides.
- **Florida & the rest of the areas impacted by hurricane Ian** – the storm is still affecting the weather in the north east.
- **Nigeria** – where there have been more Boko Haram attacks resulting in injuries & deaths, as well as looted & burned churches, homes, & businesses. The country is also dealing with an unusually heavy rainy season which has caused serious flooding.
- **Victims of Gun Violence** – 33,895 people died in gun violence this year (up by 1,705 from last week), including 1,260 children (up by 51 from last week). 30,310 people have been injured (up by 1,471 from last week) including 3,466 children (up by 185 from last week). There have been 517 mass shootings in 2022 (up by 21 from last week).
- **Iran & Other Countries** – where the governments deny basic human rights, especially to women. People, largely led by women, are engaging in protests & acts of civil disobedience to try to change that.
- **Countries Dealing with Major Political and/or Economic Upheaval** including Sri Lanka, Venezuela, the Philippines, South Africa, Nigeria, South Sudan, Myanmar, Democratic Republic of Congo, Columbia, Syria, Afghanistan, Iran . . .
- **Women & Girls** – who are treated as second class citizens in many countries.
- **Ukraine where the war continues** evidence of atrocities against civilians are being discovered daily. Russian efforts to conscript more men into their military is being met by protests against the war and a mass exodus of men from Russia to avoid the draft. At least 8 million Ukrainians are still refugees outside their country.
- **The continuing COVID Pandemic.** Some states have dropped reporting requirements so official case numbers are probably low. A new vaccine booster covering current strains, is out. Long COVID is a continuing problem.
