

Pray! Our Prayer Can Go Where We Cannot

- **Iran** – where peaceful protests against the extreme Islamic government with its powerful military, intelligence agency, & ‘morality police’ continue despite the increasingly harsh & violent government crackdown on all dissent. The government is now focusing their attention on school children. They are putting spies in schools to look for ‘signs of decent’ (like a girl wearing her head covering ‘too loosely’). The police enter schools and take children away, putting them in detention for ‘reeducation’ where abuse, threats, & torture are used. Hundreds of children have ‘disappeared’ this way. Their families do not know what has happened to them.
- **Sudan** – where people are dealing with economic collapse & wide spread hunger following a military takeover of the government a year ago. Many are fleeing their homes.
- **Uganda** – still experiencing an Ebola outbreak which was declared September 20.
- **Venezuela** – where people are continuing to recover from hurricane Julia while also dealing with violence & crippling poverty due to corruption. Nearly 7 million people (more than 1 fifth of the country’s population) have fled the country.
- **The People of Somalia** – facing famine & violence. Nearly half of the 16 million people there will be starving by December if nothing changes. The violence, tied to the al Qaeda-linked al-Shabaab, & a drought, have displaced thousands of people. Two al-Shabaab bombs went off in the capital Mogadishu last weekend leaving 324 people injured and at least 116 dead. Some people are still missing. Somalia does not have an adequate healthcare system to deal with all the wounded. They have asked their neighbors for help.
- **Puerto Rico & Dominican Republic, & the Philippines** – still recovering from hurricanes & storms.
- **Florida & other areas impacted by hurricane Ian** – The recovery efforts continue. Pray for those affected by the storm. Many are at risk of being victimized again by opportunists who take advantage of storm victims.
- **Nigeria** – flooding from an unusually heavy rainy season continues as does Boko Haram & tribal violence.
- **The People of Haiti** –dealing with a cholera outbreak, gang violence, & major political unrest.
- **Victims of Gun Violence** – 37,235 people have died in gun violence this year (up 807 from last week), including 1,412 children (up 38 from last week). 33,218 people have been injured (up 756 from last week) including 3,795 children (up 113 from last week). There have been 578 mass shootings in 2022 (up 17 from last week).
- **Ukraine where the war continues** – evidence of atrocities against civilians is being discovered daily. Protests in Russia against the war & resistance to conscription efforts continue. The Russian leader has put all areas currently under his control in Ukraine & Russia, under some degree of martial law. He is now trying to hire soldiers from other countries to fight for Russia – especially those who have been trained by U.S. forces (in Afghanistan for example)
- **The continuing COVID Pandemic.** Numbers are down in the U.S. but are climbing in other parts of the world. It is feared that low vaccination rates and reduced vigilance may contribute to a winter surge in cases.
