

What God is Like

Do you know what God is like?
We know God as the creator of all things.
We see God in all that He made from the smallest insect to the largest creatures we know.
We see God in all the diversity of creation with its constant rhythm – ever changing and renewing; regular, cycling, and yet miraculous!

We also see God in our best selves since we are made in God's image!

It is when we are at our best – when we are open to God's word and living as faithful disciples that God's image shines bright in us for all to see; a light that can do miraculous things through us when we let God take charge!

When we let our human nature get in the way; when we put ourselves before God and think we are masters over creation or in control of our own destiny, we lose sight of God and His best plans for us. We hide God's light in us or even try to put it out . . . Then the pain and hurt we can cause is unspeakable.

Even then we can learn more about what God is like – for there is no place where God cannot be found!

There is no power greater than his!
God will welcome us back into his loving arms when we ask.
God will reignite his light in us when we again turn to follow His will not our own;
Because He is the God who lovingly made us and who also offers the power of "*I forgive*"!

LLF

This week pray for:

Those who suffer at the hands of others.

Those who have lost sight of God's ways and let their human nature get in the way His good plan for them.
